Professional Summary

Computer Engineer (Universidad de Los Lagos, 2025) with experience in software development, technical support and IT infrastructure. Full-stack development with Python, JavaScript and TypeScript on React, Next.js, Node.js, Tailwind CSS, MySQL and PostgreSQL, and desktop applications with PySide6 (Qt) and Flet, including AI models running locally with whisper.cpp/pywhispercpp and FFmpeg. In cybersecurity, internal network analysis and scanning with Nmap (python-nmap) and remote administration over SSH (Paramiko). I manage Linux and Windows environments, Raspberry Pi, Git/GitHub, Docker, Google Cloud and Firebase. Certified in Generative AI Fundamentals (Databricks Academy) and in data privacy and compliance. Seeking roles in IT management, software development or cybersecurity.

Technical Skills

Languages: Python; JavaScript; TypeScript; Dart; PHP; SQL; HTML5; CSS3; Bash; LaTeX (TeX); Markdown; JSON.
Backend: Node.js; Express.js; Flet; PySide6 (Qt).
Frontend: React; Next.js; Tailwind CSS; Astro; Flutter.
Cloud: Google Cloud Platform; Firebase; Google Workspace (Sheets, Forms, Drive, Gmail).
Databases: MySQL; PostgreSQL; SQLite.
Tools: Git; GitHub; Docker; VSCodium; Microsoft Office (Excel, Word); Notion; ERP.

Work Experience

Co-founder and Developer — Osorno, Chile
Pide Sano SpA — *Aug 2026 – Present*

- Co-founded, with a partner, a healthy-food-only delivery marketplace launching in Osorno (company incorporated in September 2026).
- Build the whole platform: a Go API, Expo apps for merchants, couriers and customers, a Next.js console and Google Cloud infrastructure with Terraform.

Stack: Go; TypeScript; Expo (React Native); Next.js; PostgreSQL; Google Cloud; Terraform; Docker.

Audiovisual Technician — Osorno, Chile
Asociación del Rodeo Chileno Río Rahue Osorno — *Nov 2025 – Feb 2026*

- Responsible for the full technical production of the events, from setup to going on air.
- Set up and operated the sound system at outdoor venues, with real-time mixing and level control.
- Live streamed the events on YouTube.
- Recorded with drone and camera, edited promotional pieces and published them on social media.

Stack: OBS Studio; YouTube Live; audio interfaces, microphones and amplification; drone; video and photo cameras; Affinity; Instagram.

Technical Supervisor – UMCE Chemistry Olympiad — Osorno, Chile
Universidad de Los Lagos — *May 2024 – Nov 2025*

- Planned and managed the event logistics in regions X, XI and XIV, coordinating with UMCE and the participating schools.
- Designed and maintained the registration, attendance and results database, consolidating the regional venues into a single traceable report.
- Provided on-site logistics support and supervised students while the tests were administered.

Stack: Google Workspace (Sheets, Forms, Gmail, Drive); Microsoft Excel; data management; multi-site coordination.

Professional Internship: IT Support — Osorno, Chile
Family Court of Osorno (Judiciary of Chile) — *Jan 2025 – Mar 2025*

- Developed and deployed a full-stack web inventory manager, delivered with a user manual so the administrative staff could run it on their own.
- Co-developed an audio and video transcription application that runs locally: CPU inference lets it run on low-end computers and keeps case audio from being sent to external services.
- Provided first-line support for the Court's IT infrastructure: network, audio and hearing-room interface issues.
- Trained staff on the office software features required by the internal judicial platform.

Stack: Python; pywhispercpp / whisper.cpp; Flet; FFmpeg; uv; TypeScript; Next.js; React; Node.js; Tailwind CSS; MySQL; Git; GitHub; Microsoft Office; Windows.

Volunteer Experience

Secretary ('24); President ('25) Osorno, Chile
TRICEL (Electoral Board) of Computer Engineering, Universidad de Los Lagos *2024 – 2025*

- Led the process that established the program's Student Council, coordinating meetings between students and university authorities.

Sales Clerk and Warehouse Manager Osorno, Chile
Agrofull Importaciones Limitada *Jan 2018 – Feb 2018*

- Sold agricultural spare parts and managed the warehouse: receiving, stock control and dispatch.
- Issued tax documents and supported the migration of sales and inventory operations to the ERP.
- IT support for the company on request (to this day).

Audio and Video Editor Osorno, Chile
Radio La Mega *Apr 2015 – Jun 2017*

- Edited and mastered the audio broadcast on air, and edited the show's promotional videos for social media.

Education and Certifications

Computer Engineering (Ingeniería Civil en Informática) Osorno, Chile
Universidad de Los Lagos *2019 – 2025*

- Areas: Engineering; Computing; Management; Economics; Informatics; Software; Systems.
- Thesis project: PICIR — Comprehensive Cybersecurity Platform for Network Infrastructure. Desktop application (Python 3.12, PySide6/Qt) to analyze and protect internal networks: host discovery and port and service scanning with python-nmap, and remote administration over SSH with Paramiko.

IA para profesionales de negocios *HP LIFE, Aug 2026*
Online business strategy and applying generative AI to organizational processes.

IA para principiantes *HP LIFE, Jun 2026*
Core concepts of generative AI and its productive use cases.

Academy Accreditation — Generative AI Fundamentals *Databricks Academy, Aug 2025*
Generative AI: large language models (LLMs), capabilities, limitations and responsible use.

Fundamentos de Privacidad y Cumplimiento (Essentials) *USACH Training, Mar 2025*
Privacy and personal data protection, and regulatory compliance in information systems.
